

The En-Powered Woman

leading with courage, clarity and confidence

Prefix: en – meaning the energy within thereby reclaiming her inner power

One Day Workshop – 8 August 2019

9am – 4pm, Waiheke Island, Auckland

“Where there is a purpose, there is always a path.”

The time has never been better to claim your leadership role in co-creating where all people prosper – from the people you work with to the communities we serve. The en-powered woman brings a unique voice and experience to the workplace, forges a road ahead that supports the many that follow her, knows who she is, what she stands for and the difference she can make.

Intuitive and wise, she not only nurtures those around her, she backs herself to make the hard calls with a brave heart when it is needed so that the ‘good of all’ is upheld over the ‘good of the few’. She is present; listens, seeks to understand and speaks her truth with care and compassion.

Understanding energy and the cycles of nature, she recognises when she must pull back and ‘go within’ to reflect, recalibrate, review and renew herself to take advantage of the next cycle of growth and evolution.

This workshop is for professional women who seek more clarity, courage and confidence to really step up and stand out as a leader in the workplace or in the greater community.

It is also for aspiring women leaders who want to take the next step in their careers and build solid foundations to support their growth, evolution and ultimate impact for the greater good.

In 6 hours, we will:

1. Explore the past to unlock the gifts of the present
2. Discover your greater purpose and
3. Who you need to Be to really stand in your power and bring your purpose to life.

Interactive and reflective, this is a day *just for you*, to go within and ignite your inner fire and passion. When do you ever get a chance to do this? Make the investment, put yourself first - you’ll be glad you did!
